PROFESSIONAL SUMMARY

SCE-registered Industrial Engineer and Continuous Improvement specialist with **10+ years** in textile and carpet manufacturing. Built an Industrial Engineering framework across **5 sections**, developed SOPs and delivered on-the-job training for Production, Quality and Maintenance teams across **3 factories**. Led Kaizen events and KPI-based reward systems on programs for Levi's, Adidas and Nike, achieving a **25% reduction in compliance issues**, **11% manpower optimization** and **10% inventory reduction**. Skilled in Power BI and Advanced Excel, and builds AI-assisted Google Workspace web apps for data analysis, visualization and operational excellence.

CAREER HIGHLIGHTS

10+ Years in textile & carpet manufacturing	50+ SOPs created	500+ Workers trained	25% Fewer compliance issues	11% Manpower optimized	10% Excess inventory reduced
---	----------------------------	--------------------------------	---------------------------------------	----------------------------------	--

CORE SKILLS & TOOLS

TECHNICAL	Lean Six Sigma (Green Belt), Lean Manufacturing, Kaizen, 5S/6S, Work Study, Production Planning, Quality Management, Root Cause Analysis (RCA), Value Stream Mapping (VSM), SPC, SMED, Line Balancing, A3/PDCA, Standardized Work, SOP Development
TOOLS	Advanced Excel, Power BI, MS Visio, AutoCAD, SolidWorks, ERP, PowerPoint, Google Workspace Web Apps (AI-assisted)
SOFT SKILLS	Time Management, Communication, Training & Coaching, Leadership, Change Management, Operational Excellence Culture Building

PROFESSIONAL EXPERIENCE

Industrial Engineer Al Hayat Carpet Factory Dammam, KSA	Jan 2025 – Present
- Built an Industrial Engineering framework across 5 sections, aligning Production, Quality and Maintenance to standardize work and drive continuous improvement. - Created 12 SOPs and trained 80+ workers, bridging the gap between management objectives and workforce execution. - Optimized the value stream through capacity balancing and Lean management, reducing bottlenecks and improving flow. - Applied 5S, Kaizen, Standardized Work, A3/PDCA and 5 Whys root cause analysis to build a preventive culture. - Led bottleneck analysis with cross-functional teams, improving process stability and ownership.	
Deputy Manager Combined Fabrics Limited Lahore, Pakistan	Feb 2020 – Jun 2024
- Designed new production floor layouts to increase capacity, visual management and throughput. - Introduced a KPI-based appraisal and reward system that fostered a high-performance culture. - Led the Levi's requirement campaign to 100% adherence through rigorous follow-up. - Streamlined compliance processes, reducing compliance issues by 25% and strengthening audit readiness. - Built an Efficiency Report tool that reduced manpower by 11% and optimized utilization. - Established a Training & Development section to upskill the workforce and improve line efficiency. - Optimized capacity allocation through a product-type loading strategy.	

Assistant Manager

Nov 2015 – Jan 2020

Style Textile Private Limited | Lahore, Pakistan

- Led line balancing and WIP calculation, **reducing excess inventory by 10%** and improving efficiency.
- Implemented 6S and ERCS for workplace organization and safety, improving audit scores.
- Drove Kaizen/ERCS initiatives to eliminate non-value-added (NVA) and manual operations, reducing waste and cycle time.
- Automated common operations with laser lights, templates and guides, enabling multi-line operation with less manpower.
- Championed Skill Matrix and SMED quick changeover to improve flexibility.
- Developed operation bulletins calculating SAM and stitching targets to improve sewing efficiency.
- Supervised **12 multi-skilled operators** in cellular manufacturing, reducing lead time and cost.

EDUCATION

Bachelor of Science in Industrial Engineering & Management

Dec 2011 – Dec 2015

University of the Punjab | Lahore, Pakistan

Key subjects: Production Planning, Operations Management, Supply Chain Management, Work Study

CERTIFICATIONS & COURSES

Registered Engineer, Saudi Council of Engineers (SCE) | Feb 2025

Lean Six Sigma, BGMC | Aug 2025

Applying Quality in Project Management, SCE | Aug 2025

Supply Chain Management, SCE | May 2025

Foundations of Project Management, Google | Nov 2023

Advanced Excel, Elearnmarkets | Jul 2021

Management in Engineering, MIT | Jan–Apr 2021

INTERNSHIP

Trainee Engineer

Jun – Aug 2015

Pak Elektron Limited (PEL) | Lahore, Pakistan

- Conducted value stream mapping (VSM) of assembly lines to identify waste and improve flow.
- Reorganized the floor for optimal utilization and material movement.
- Designed a jig in SolidWorks for refrigerator foaming doors, increasing capacity.

Ready for KSA & worldwide Opportunities

Industrial Engineer | Lean Six Sigma | SCE Registered | Power BI & AI
