

01 PROFESSIONAL SUMMARY

SCE Registered Industrial Engineer & Continuous Improvement Specialist with **10+ Years** in **textile and carpet manufacturing**. Built **IE framework across 5 sections**, Successfully Developed SOPs and Delivered many On Job Trainings for various Departments including Production, Quality & Maintenance, in 3 Factories. Led Kaizen events & implemented KPI-based reward systems for **Levi's, Adidas, Nike**, delivering **25% compliance reduction, 11% manpower optimization, 10% inventory reduction**. Expert in Power BI, Advanced Excel & Built Many **WebApps in Google Workspace with AI** for operational excellence drive with Data analysis and Visualization.

02 PROFESSIONAL EXPERIENCE

INDUSTRIAL ENGINEER, **Al Hayat Carpet Factory**

📍 Dammam, KSA Jan 2025 – Present

- ▶ Built **IE framework** across **5 sections**, aligning Production, Quality, Maintenance to standardize work and drive CI.
- ▶ Created **12 SOPs** and trained **80+ Workers** to bridge the gap between Management mission and Workforce.
- ▶ Optimized value stream via **capacity balancing** and Lean Management, reducing bottlenecks and improving flow.
- ▶ Applied **5S, Kaizen, Standardized Work, A3/PDCA, 5 Whys RCA** to drive preventive culture.
- ▶ Conducted **bottleneck analysis** with cross-functional teams, improving stability and ownership.

DEPUTY MANAGER, **Combined Fabrics Limited**

📍 Lahore, Pakistan Feb 2020 – Jun 2024

- ▶ Designed new **production floor layouts** enhancing capacity, visualization and throughput.
- ▶ Introduced **KPI-based appraisal & reward system** to foster high-performance culture.
- ▶ Led **Levi's Requirement Campaign** achieving **100% adherence** via rigorous follow-up.
- ▶ Streamlined compliance, **reducing compliance issues by 25%** and strengthening audit readiness.
- ▶ Built Efficiency Report tool, **reducing manpower by 11%** and optimizing utilization.
- ▶ Established Training & Development Section to upskill workforce and improve line efficiency.
- ▶ Optimized allocation via **product-type loading strategy** at best capacity.

- ▶ Led **line balancing & WIP calculation**, **reducing excess inventory by 10%** and improving efficiency.
- ▶ Implemented **6S & ERCS** for workplace organization and safety, improving audit scores.
- ▶ Drove **Kaizen/ERCS** to eliminate NVA and manual operations, reducing waste and cycle time.
- ▶ Automated common ops using **Laser Lights, templates & guides**, enabling multi-line with less manpower.
- ▶ Championed **Skill Matrix & SMED Quick Changeover** to improve flexibility.
- ▶ Developed operation bulletins calculating SAM and stitching targets for sewing efficiency.
- ▶ Supervised **12 multi-skilled operators** in cellular manufacturing, reducing lead time & cost.

03 EDUCATION

Bachelor of Science in Industrial Engineering & Management

University of the Punjab, Lahore, Pakistan | Dec 2011 – Dec 2015

Production Planning

Operations Management

Supply Chain Management

Work Study

04 CORE SKILLS & TOOLS

TECHNICAL

Lean Six Sigma (Green Belt), Kaizen, 5S, Work Study, Production Planning, Quality Management, RCA, VSM, SPC.

Lean Six Sigma

Kaizen

5S/6S

VSM

SPC

TOOLS

Excel Advanced, Power BI, MS Visio, AutoCAD, ERP, PowerPoint & Google WebApps.

Google WebApps

Power BI

Excel Advanced

Visio

SOFT

Time Management, Communication, Training/Coaching, Leadership, Change Management, Operational Excellence Culture Building.

05 COURSES & CERTIFICATIONS

★ Registered Engineer, Saudi Council of Engineers | Feb 2025

• Lean Six Sigma, BGMC | Aug 2025

• Applying Quality In Project Mgmt, SCE | Aug 2025

• Supply Chain Management, SCE | May 2025

• Foundations of Project Mgmt, Google | Nov 2023

• Advanced Excel, Elearnmarkets | Jul 2021

• Management in Engineering, MIT | Jan-Apr 2021

06 INTERNSHIP

Trainee Engineer, Pak Elektron Limited (PEL)

Lahore, Pakistan | Jun-Aug 2015 — Assembly Lines & Foaming Jig Design

- ▶ Conducted VSM of assembly lines to identify waste and improve flow.
- ▶ Reorganized floor for optimal utilization and material movement.
- ▶ Designed jig on SolidWorks for refrigerator foaming doors with greater capacity.
